

FROM PLAZA TO RESORT

The hotel and indoor water theme park complex located in the northern part of Budapest, just off the Pest abutment of Megyeri Bridge along the new M0 ring, operates under the new name of **Ramada Resort – Aquaworld Budapest**.

The management of the four-star superior conference and wellness hotel decided to rename the complex (previously categorized as Plaza), since the unique and wide range of experience-centred hospitality services, the huge water surface of the „Aquaworld – Water Park” and the green surroundings better fit the Resort category and its concept.

The aim of the Ramada Resort – Aquaworld Budapest is to provide guests with a complex experience: *From flip-flops to luxury shoes....*

The complex will open its gates to the public in autumn 2008.
